✓ Static IP Available

Already a standard feature on our nbn services, our 4G backup now also offers a static IP address. Ensure your businesses remote access and security systems will continue to function in the event the nbn goes down.

✓ Unlimited 4G Failover

In the event that your nbn goes down, the 4G backup keeps you online. You'll get unlimited 4G data with uncapped speeds until all issues are resolved and your service is restored. See **Important Conditions** overleaf for full details.

✓ Unlimited NBN

All Vonex nbn plans have unlimited data inclusions, which means no additional charges to your business, no matter how many updates you require during the month!

✓ DDoS Protected

At the carrier level we are ensuring that Distributed Denial of Service (DDoS) attacks on your network are mitigated, giving you peace of mind that your services will not be affected by this ever growing international cyber threat.

Bundling arrangements:

This service includes by default the bundling of both an nbn and mobile backup service. We do provide other telco services that can be included on one bill. Please contact us for further information.

Mandatory components:

Direct debit is required. Vonex reserves the right to credit check customers before approval and acceptance of an application for new services. The customer direct debit payments of bills are deducted 4 days after your email bill is issued. Use of the Vonex Supplied and configured hybrid CPE is required for the NBN Assure product.

Important Conditions:

NBN Assure failover applies only if there is an event of an NBN outage or service fault. It is not to be used in the event of a CPR failure, even if provided by Vonex Telecom. Vonex reserves the right to suspend the backup service if a breach of this usage is detected or if a fault has not been logged within 1 business day. The SIM card will not be activated until the NBN installation is complete and activated. Where relevant the NBN service and SIM services are provisioned with separate Static IP addresses. The Assure services is not to be used for load balancing or bonding. A transfer fee of \$50 and Modem upgrade fee, may be charged if a current Vonex NBN service is moved to NBN Assure.

If you're in a newly constructed building and not already connected to the NBN, NBN Co may charge you a once-off New Development charge of \$300 (inc GST). A 240 volt power supply may be required to power the equipment. In the event of a power outage, your services will not work unless you maintain a backup battery. Where there is no available copper line available for an FTTN new connection, a new copper phone line will need to be connected. The standard charges of \$299 will apply. Fee when a fault raised to the Carrier is not found on the Carrier's Network \$150.00. Greenfields Installation Fee (Per Service Location) \$272.72. Subsequent Installation (including new Copper Pair) \$270. Late Cancellation of Appointment or Missed Appointment \$75. For FTTB, FTTC & FTTN customers, until your service is connected, we are unable to confirm your maximum attainable speed. If your line does not support your chosen connection tier, we will inform you and offer you alternative options. Standard installations are completed without charge to you. Non-standard, additional, or subsequent installations may require you to pay additional charges. Any cabling that is required in your premises beyond the Network Boundary Point is your responsibility. Vonex supplied modem is supplied with the service, This is free on a 36 month contracts, is pre-configured and customer self-installed.

Early termination charges:

If you cancel the service before the end of the contract term of 36 months, a fee of 50% of the monthly rental, multiplied by the remaining months of the contract will be payable to Vonex.
