

NBN Enterprise Ethernet

Information About the Service

This service is a high bandwidth symmetrical access internet service. It is activated on the nbn™ fibre infrastructure where available. Unlike standard nbn products, each service includes with a standard 12 Business Hour restore target, time is extended if a site visit is required and/or the premises is located outside of a metropolitan area. Contract term available is 36 months.

The monthly plan fees include Internet access to the customer's premises via the NBN Fibre Network and a static IP address.

Bundling Arrangements

This service is not conditional on any bundling arrangements, but Vonex does provide other telco services that can be included on one bill. Discounts are offered if this service is bundled with an eligible Vonex VoIP product.

Mandatory Components and Conditions

The below plans are CoS (Class of Service) Low and delivers traffic as 'best-efforts' which includes no contractual guarantees on the network performance and may be subject to congestion at times of high network usage, CoS High provides a Committed 1:1 Information Rate. CoS High plans are POA.

Compatible hardware is required to use the service and can be supplied by Vonex if required. Some equipment that is owned by NBN Co will need to be installed in your premises, if it isn't already, and a 240-volt power supply will be required.

Internal cabling is the customer's responsibility and cost. Insufficient cabling beyond the network boundary point may delay provisioning of the service. Additional installation charges may apply for non-standard installations and will be confirmed prior to the acceptance of an order. The service will not function in the event of a power failure unless you install an Uninterruptible Power Supply (UPS) to provide power to all equipment associated with using the service.

The selected speed tier is the maximum possible download/upload speed (Mbps) that is available during off-peak periods. Actual speeds may be slower for a variety of reasons including congestion, location, local conditions, hardware, software and general traffic.

Information About Pricing

Plan	100/100	250/250	500/500	1000/1000
Monthly Fee	\$370	\$510	\$710	\$900
Monthly Fee Bundled	\$339	\$469	\$649	\$829
