

4G Wireless Broadband

Information About the Service

This service is a Wireless Broadband service utilising the Optus 4G Mobile Network and is serviceable wherever the Optus 4G Network is available. 4G Wireless Broadband services deliver a 4G internet connection to your premises and is designed to be used in a fixed location. Vonex Wireless Broadband mobile plans are available for new services. The minimum contract term is 12 months.

The monthly plan fees include Internet access to the customer's premises via the Optus 4G Mobile Network and a SIM configured with hardware purchased or supplied by Vonex.

Bundling Arrangements

This service is not conditional on any bundling arrangements, but we do provide other telco services that can be included on one bill.

Mandatory Components and Conditions

Compatible hardware is required to use the service and must be supplied by Vonex. The SIM supplied with the modem must not be removed from the modem and will not work in any other device.

The selected speed tier is the maximum possible download speed (Mbps) that is available during off-peak periods. Actual speeds may be slower for a variety of reasons including congestion, location, local conditions, hardware, software and general traffic.

Monthly data inclusions are set out in the table below. If you use more than your included data during your billing month, Vonex will automatically top up your data allocation with 10GB for \$12. If you use more than 50GB of data, Vonex will automatically charge \$12 for every 1GB beyond 50GB. Data expires at the end of each billing month. Data is counted in kilobytes and includes uploads and downloads.

Service cannot be used overseas.
