

Business Fibre

Information About the Service

This service provides the customer with data access via Ethernet technology to a specified address. The service is available Australia wide but may not be available in all locations. This service is a high bandwidth symmetrical access internet service utilising multiple carriers dependant on the customer's location and needs. The standard contract term is 36 months.

The monthly plan fees include Internet access to the customer's premises via a Fibre Network.

Bundling Arrangements

This service is not conditional on any bundling arrangements, but Vonex does provide other telco services that can be included on one bill.

Mandatory Components and Conditions

All orders are subject to a Service Qualification to confirm the premises can support the service. Not all bandwidth options are available to every premises. Delivery and completion of the service is dependent on infrastructure and delays, or additional charges may be incurred if additional cabling is required to complete the service.

The service may be provided as either an Internet or Ethernet Layer 2 connection delivered as Ethernet over optical fibre or copper depending on available infrastructure, the customer's requirements and location of the customer premises.

All Business Fibre services include a Service Level Agreement (SLA) and access to afterhours technical support via the Vonex priority support number. The service also includes proactive service monitoring during office hours and reactive service monitoring after hours, 7 days a week, unless otherwise specified on the order.

Any service modifications must be submitted by written request to Vonex. The technical availability and applicable fee for any service modification is provided by quotation and may result in an Establishment Fee and/or a new contract term.

Vonex will provide a Network Termination Unit (NTU). The NTU is the device that the service terminates on at the customer premises. Beyond the NTU a router may be required. Vonex may be able to provide a router, depending on the customer's requirements, for an additional cost. The NTU is managed by, and remains the property of, Vonex.

Information About Pricing

The monthly fee for a Business Fibre service is provided by quotation and is billed in advance each month. Business Fibre pricing will vary depending on the location, infrastructure, customer requirements and delivery method.

The following fees are the baseline fees and represent a 'from' price.

Monthly Fees						
Speed Tier (Mbps)	Monthly Fee (exGST)	Carrier	Zone	Minimum Connection Fee	Contract Term	Minimum Total Charge (exGST)

1000/1000	\$659	Telstra – EA	All	\$0	36 Months	\$23,724

An Establishment Fee may be applicable for Business Fibre services and is provided by quotation. The Establishment Fee is payable prior to the order being processed by Vonex.

At the end of the contract term, the Vonex monthly charges will continue at the same rate.

Service Cancellation

If the service is cancelled, the last monthly access fee is payable in full. If the service is cancelled prior to the contract end date a Cancellation Fee will apply. The maximum Cancellation Fee payable is the total of the remaining monthly access fees for the contract term. In addition, a fee will apply if the supplied NTU is not returned to Vonex within 30 days. This charge will also apply if the NTU is returned in a poor or non-functional condition.

Relocation of the service to a new address does not release the customer from an obligation to pay any applicable early termination fee, unless approved in writing by Vonex. If the service is not relocated with Vonex for any reason, including but not limited to, Vonex being unable to deliver a service at a new location, any applicable early termination fee is payable in full.

If the order is withdrawn for any reason, before the Service Start Date, a Cancellation Fee may be issued. The amount of this fee depends on the stage of the order at the time it is cancelled, Cancellation Fees calculated due to order withdrawal constitute a genuine estimate of Vonex's financial loss.
