

Business Mobile SIM

Information About the Service

This service is a mobile voice and data service utilising the Optus 4G/5G Mobile Network and is serviceable wherever the Optus 4G/5G Mobile Network is available. This mobile service delivers a 4G/5G mobile connection to your mobile device and allows data pooling between multiple services under the same account. The minimum contract term is 1 month.

The monthly plan fees include local, national and mobile calls, SMS and MMS to standard national mobile numbers, calls to 13, 1300 and 1800 numbers, a pooled data allowance and a physical SIM configured with the Optus 4G/5G Mobile Network.

Bundling Arrangements

This service is not conditional on any bundling arrangements, but we do provide other telco services that can be included on one bill.

Mandatory Components and Conditions

A compatible mobile device is required to use the service and must be supplied by the customer. The device must be unlocked and able to use the Optus 4G network that covers up to 94.5% of the Australian population.

Your monthly included calls, SMS and pooled data cannot be used overseas and do not include calls to directory assistance, video calling, premium numbers, or content charges. Calls and SMS/MMS outside of your inclusions or to other destinations will be charged at standard rates.

Monthly pooled data inclusions are set out in the table below. If all users use more than your included pooled data during your billing month, Vonex will automatically top up your data pool allocation and charge \$10 for every 1GB. Data expires at the end of each billing month. Data is counted in kilobytes and includes uploads and downloads. Data can only be pooled with other Business Mobile SIM services and other plans with similar features.

Overseas roaming is not available with this service and international calls are disabled by default.
